Seif Amr

Full-Stack Web Developer

Email: seifamrmohsen2005@gmail.com | Phone: +20 122 191 5144
Alexandria, Egypt | Instagram: Seifinity

PROFESSIONAL SUMMARY

Computer and Data Science student specializing in Full-Stack Web Development, with hands-on experience building responsive web interfaces and RESTful APIs. Skilled in HTML, CSS, JavaScript, TypeScript, React, Node.js, Express, database integration, Git, and GitHub. Experienced in academic and personal projects, problem-solving, API development, CRUD operations, and collaborative software development. Actively seeking a Full-Stack Web Development, Front-End Development, or Back-End Development internship or entry-level opportunity.

TECHNICAL SKILLS

Front-End	HTML, CSS, JavaScript, TypeScript, React, UI/UX
Back-End	Node.js, Express.js, RESTful APIs, CRUD Operations
Databases	MongoDB, Firebase, Database Integration, ERD, Relational Schema Design
Programming	Java, C++, Python, Dart
Data & BI	Data Analysis, Data Science, Excel, Power BI
Tools	Git, GitHub
Other	Problem Solving, Analytical Thinking, Teamwork, Time Management, Report Writing

PROJECTS & PORTFOLIO

Personal Web Development Portfolio — Seifinity
Maintains and showcases a collection of personal and practical web development projects through a dedicated online portfolio associated with the Seifinity brand. Projects demonstrate front-end development, full-stack application development, REST API development, database integration, UI/UX, and problem-solving skills. Portfolio: Seifinity (Instagram / personal project showcase).

Full-Stack Web Applications
Designed and developed responsive web applications using HTML, CSS, JavaScript, TypeScript, React, Node.js, and Express. Implemented application logic, API integration, CRUD functionality, and database connectivity.

RESTful API Development
Built RESTful APIs with Node.js and Express and practiced CRUD operations with database integration.

Academic & Practical Projects
Completed hands-on programming, data structures, database, algorithmic, and data science projects through university coursework and self-learning.

EXPERIENCE

- Designed and developed full-stack web applications using HTML, CSS, JavaScript, TypeScript, React, Node.js, and Express.
- Built RESTful APIs and implemented CRUD operations with MongoDB database integration.
- Applied database design concepts including ERD modeling and relational schema design.
- Used Git and GitHub for version control and followed clean-code practices.
- Collaborated on team-based academic projects across planning, implementation, and testing phases.

EDUCATION

Alexandria University — Computer and Data Science
2023 – 2027 (Expected) | CGPA: 3.15 / 4.00 (Very Good)

PROFESSIONAL DEVELOPMENT

- Completed practical coursework in Computer Science and Data Science covering programming fundamentals, data structures, and database systems.
- Developed a strong understanding of back-end development using Node.js, Express, and database integration.

- Gained problem-solving experience through algorithmic assignments and practical applications.
- Continuously improving skills in full-stack development, API design, and software engineering best practices through self-learning and hands-on projects.
